

## Candidate for the 31st NCC S'ganit - Madison Harr

BBYO is only as strong as its programming, as programming is the core of this movement. I plan to make North Carolina Council's experiences the best that they can be. I want to continue North Carolina Council and Eastern Region's successful legacy through the responsibilities that I would be fulfilling if elected. I know that North Carolina Council has the potential to continue reaching higher and higher, and I know that I can assist with making this council the best council in the international order. I want to elevate North Carolina Council holistically through elevated programming, conventions, and experiences.

Firstly, I will work with the chapter S'ganim to elevate experiences on the chapter level. Chapter programming is one of the most important aspects of BBYO, and it should be utilized. I will oversee all chapter programming to make sure every chapter program exhibits the qualities of WOW programming. Every chapter program will be engaging, exceptional, and memorable. Using resources such as the seven folds, movement initiatives, and the BBYO Toolbox, along with other resources that I provide, I know that NCC BBG's chapter programming will be outstanding.

Next, I will elevate experiences on the council and regional level. Conventions are essential experiences within our region, and it is always a special time when we are all together. Since we get to be together, as a region or council, only a few times a year, I want to make those times extraordinary. If elected, Regional Convention 2021, along with all of the other conventions and regional experiences, will be memorable and beyond amazing. I will utilize my council counterparts and Regional Leadership Network chairs to ensure that the moments spent at conventions are the best ones yet. In working with my council counterparts, the rest of NCC BBG's 31st board, and chairpeople, moments and programming at conventions will be varied and diversified.

Lastly, I want to strengthen the bonds between our BBGs through inclusive and intimate experiences at conventions. Building a bond between our fellow members is an extremely important step to take for BBYO experiences. This responsibility doesn't lie on only one board member, it is the responsibility of all board members. I will make sure every program and experience is inclusive and allows strong bonds to be made.

I plan on making 2021-2022 the best year for NCC yet. Through strong chapter and regional experiences, along with building strong bonds, I know I can help NCC and Eastern Region achieve great things. If elected as your 31st North Carolina Council S'ganit, every single experience will be carefully planned out for excellence, and they will be phenomenal.
