My Brother Alephs,

I present myself before you today in candidacy of the 30th North Carolina Council Shaliach. In the potential event that I am elected for the high and honorable Council Shaliach, I will work to succeed far beyond the common social implementations to ensure the betterment of our community. Though just a few months can only teach and influence an individual so much, if I could detail what I have learned in the last few months, I would stand here before your presence for extended days on end. Reflecting upon my short presence among this community, I have learned that through it is significant to acknowledge and emphasize self Judaic development, such growth can only happen when you recognize the brothers who stand amongst your presence. BBYO defines a social environment where us brothers can reunite amongst the presence of each other. A location where we can find and advance upon our own senses of navigation in relation to the Jewish World. As North Carolina's 30th Council Shaliach, I will seek a Judaic journey yet a destination far beyond ourselves.

Fraternally submitted with undying love for Hank Greenberg AZA #1604. Home to the Eastern Region:  
North Carolina Council, I forever remain Aleph Benjamin Noah Green.
