

Dana Shulman
Candidate for 29th North Carolina Council S'ganit

As one council we are currently thriving in an ~INCREDIBLE~ way and doing better than ever. I want to continue on with what BBYO has given me and motivate you all to make our council as strong as possible.

I was inspired at my first International Convention to impact my region as much as possible because of the outstanding programming that I was able to witness. It was an experience that changed my life and encouraged me to come back to Eastern and push all BBGs to find meaning through *their* BBYO experience.

My sister B'nai B'rith Girls: My name is Dana Michelle Shulman and I am aspiring to be your 29th NCC S'ganit because I want to help strengthen the core of our International Order and ensure that our council/region is reaching unimaginable new limits!

I have been a damn proud BBG ever since I first joined Shaina BBG #1618. Soon after joining, I was inspired to make an impact. I served as Shaina's Sh'lichah and S'ganit. My involvement on a chapter level pushed me to be more involved with my council/region and the International Order. I currently serve as NCC's 28th Sh'lichah and I've attended all possible events/conventions, served on multiple steering committees both regionally and internationally, attended CLTC 6 2017, and IC 2018 and 2019!

Furthermore, I want to impact the region more than ever before and encourage everyone to be connected to their BBYO roots. If elected as your 29th NCC S'ganit, some of my goals are increasing the communication throughout the S'ganim network, revamping chair positions within our council, and adhering to International standards.

I plan to do this by implementing three concrete ideas. I've created a communication schedule that will help maximize the interconnectedness of our network. This includes sending out monthly emails, holding monthly network calls, and conducting bi-monthly personal calls with counterparts. Also, I have new visions for the SpeakUP, Tikkun Olam, and Inclusion chairs that would give them more legitimized leadership roles in our council, in addition to creating a BBG @ 75 chair and a Spirit chair. Finally, I have planned to coincide our council/regional initiatives with the International Order. This year, we will be emphasizing BBG @ 75, #SganimWins, myBBYO, and all other initiatives that are highlighted on the International level.

As Jewish teens, it is our responsibility to participate in this amazing sorority and take part in the highest quality programs while truly embracing them. This is why we, NCC BBG, must work together in creating the most impactful programs, to ensure that our council is moving in the right direction.

NCC has given so much to me and I know I'm ready to give back! Each and every one of you has helped our region to become what it is today and you all have the potential to truly impact our region to make it thrive. I understand the responsibilities of being on council board, and if elected, I promise to be ~INCREDIBLE~ for YOU!
