

Abbie Johnson (Portland – Herzl BBG)

Vision Statement

My vision as Regional S'ganit is to constitute a region that cultivates strong, inclusive, diverse, and intentional programming. I envision a region where everyone is included in the programming process and every program utilizes the six folds for a unique purpose. Through workshops, a programming bank, and collaboration with peers, I plan to ensure every EGR member is given the resources to articulate their ideas and passions into a meaningful program. In my vision, convention leadership opportunities are offered to all of EGR and no idea goes unnoticed. I see a Region that is timely and organized, with counterparts who feel supported and motivated not just by Regional Board, but all of their peers. I see a web of support built throughout Evergreen Region to improve quality of programming through showcasing programs at conventions, and helping each other along every step of the program planning process. Overall, I envision a thriving, empowered Evergreen Region community who's programming and conventions gain an international presence by taking the creativity within each individual member to construct something great.

Mission Statement

To heighten Evergreen Region's programming and conventions to a level never seen before. Through supporting each other and utilizing the passions and ideas of the EGR body, I plan to accomplish my goal of making unprecedented programming a forefront of EGR's values, and something everyone feels capable of doing.
