Live your life leaving a
 legacy of love (אהבה),
 because in the end, what
 else really matters?

CARLY ALEXA YANOVER

caucusing for your 63rd

*Regional N'siah***My sister B'nai Brith Girls,**

A legacy is something you leave behind, but more than that it is proof. Proof that during your time you have shaped the lives of those around you. Throughout my time in this organization the most important thing I have learned is that it doesn't matter what you have or who you are, but instead who you have the potential to impact. Whether you are an upperclassman and your time is ending, or you are an 8th or 9th grader just getting started, your time here is shaped by those around you. When others treat you like you have the potential to be unstoppable, you become unstoppable. All of this is through LOVE. The love you have for this organization serves as motivation to impact the people around you, hoping that one day they will have similar experiences and understand why you loved it so much. We want to make others appreciate something the way we do, hoping one day they will experience the magic of BBYO on their own, and understand the gratitude felt towards this organization. This is done through inspiration. I was fortunate in that I was impacted by many older members around me, due to their undying love for BBYO and what it had done for them. I stand here today because of the way they inspired me, but more than that, because I have hopes and dreams to impact you, to change your life, and to show you why I am forever grateful to an organization that has provided me so much. I hope you take this journey with me, so together, we can change the lives of those around us and inspire them to one day
