

DANI'S CANDY LAND

is caucused for the high and honorable position of NSR's 63rd Sadranit

My sister B'nai B'rith Girls,

Life is like a board game. To win you have to make a move. Knowing which move to make comes with insight, knowledge and by learning the lessons that are accumulated along the way. Planning convention and playing a board game are very similar. In order to have the best convention, you need to plan. Knowing how to plan comes with insight and knowledge, just like a board game. Convention has always been an unforgettable experience. Convention is what made me fall in love with BB40 and I want others to experience the impact convention had on me. Being your Sadranit chair last year gave me this. If given the chance, I am confident that I can make convention even more amazing than it already is. I promise to work to my full potential to make the 2020-2021 programming year a success. With your support, I will continue the traditions, memories and friendships that are formed at convention. Submitted with undying love and devotion for board games, the best weekend of my life, NSR #19, and my heart and home Par Par BBG #2538, I forever remain one damn proud candidate for NSR's 63rd Sadranit.

GOALS AND IDEAS

Steering: To help increase the productivity of steering, I'd hold in depth meetings with each committee to make sure programming is successful and meaningful. Everyone coming to convention should take something out of it and the steerers are a huge part of the weekend's success.

Electives: In order for the region to be more engaged in electives, it is important that we know what everyone wants to do. Polls and surveys will be sent out to the region to engage the region and help the steerers come up with ideas that everyone will enjoy at convention.

Judiac Programming: Besides incorporating the 6 folds into programming, I would love to bring AZA's and BBG's together to talk about important topics like anti semitism, the holocaust and Israel.

Shabbat: There are so many shomer shabbat teens throughout long island and we can work together to make BB40 a more inclusive place for all jews throughout long island.

Promo and Design: To promote convention we can have a push week and send out promotion videos and pictures to tag your friends and other chapters on. In addition we can make an NSR tik tok to promote not only convention, but to promote all events. Also, I want to have a convention t-shirt design contest that the region votes on so the region feels included in the planning convention.

Committee Captains: The addition of committee captains will ensure efficiency and productivity of each committee at steering. Captains will be awarded to a BBG/AZA who shows passion towards convention, is organized and is a leader.

Roomie Test: Rooming is a big part of convention. Most people go into the weekend knowing one person they want to room with and get randomly paired with another group of two. For this process to be as successful as it can be I would like to implement a roomie test. This way, rooms will be paired by people with similar personalities causing everyone to be happy, meet people similar to them and enjoy their weekend.

Increased attendance: Large attendance makes a more successful convention! We can have a chapter membership rally for points towards winning the spirit bear.

Program signups: Prior to convention, each member will be able to select and sign up for their top choice of elective and judaic program to avoid chaos during the weekend and to ensure each member is at an activity they know they will enjoy. It will also make sure everyone has a place to be. Pre program signups are a great way to remain organized.
