My Sister B'nai Brith Girls,

In order to power their city, Monsters must scare children, so they scream. The screams are saved in tanks. Their town runs off scream energy. The Nassau Suffolk Region is the same as Monsters, Inc. This regions programming and events run off money in order to have the best programs, which is why we as a region should aspire to be like the monsters in Monsters, Inc. The writers of Monsters, Inc embodied many visions that I have for the region into the movie. With planned fundraisers, we can create a BBYO region based upon running strong programs, and not have to worry about budgets as much. One way we can keep our region together is money. Throughout my past years in BBYO, I have seen the fundraisers and the charity work the Gizborits of the NSR region have done. Better yet, I have my own goals and ideas that will help the region and each chapter thrive. As Gizborit, I will help the region reach its full potential by raising money during fundraisers and events.

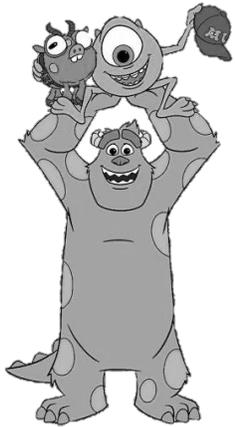

Submitted for undying love and devotion for Scream Power, fundraising, Monsters, Inc., NSR #19, and my heart and home Masada BBG #1519, I forever remain Samantha Paige Goldstein,

Samantha Goldstein

One Damn Proud BBG
