

# CANDIDATE FOR THE NASSAU SUFFOLK REGION'S 63RD MAZKIRAH ABIGAIL LEV

## **VISION STATEMENT:**

For the 2020-2021 term, I have three main goals:

1. I would like to **increase regional communication**. Simply stated, I want to host more counterpart bonding and check-in sessions and I want to promote each and every event to a larger means. I hope to upload photos and other information onto the website frequently so that members of the region can always be up to date.
2. I plan on **creating a pen pal network** with BBGs from another region. Not only will this allow all members to be exposed to what BBYO is like outside of NSR, but it will also give girls an opportunity to make new friends with whom they may reunite at a summer program or on IC.
3. Lastly, I want to **form a regional yearbook** for the end of my term. Each chapter can highlight their favorite program and pictures from events will be featured.

Furthermore, BBGs and Alephs can input their ideas on a Yearbook Committee.

If chosen for this position, I promise to not only work my hardest to achieve these three goals, but to put my efforts towards the goals and ideas on my platform as well as any other arising ideas that surface throughout the year.

**With Mazkirim, Katvaniot, and Orechim all being under the “Communication Network” you will have a lot of counterparts to manage throughout your term.**

**How will you stay organized and ensure that each counterpart is on track?**

I pride myself on being an extremely organized person, and being able to sufficiently manage my time and surroundings. I plan to have an overarching group chat in which I can always reach any or all of my counterparts, as well as mid-year progress calls with each person individually. Lastly, I hope to have quarterly counterpart bonding sessions in order to get to know and become closer with my counterparts, and to encourage them to always reach out for help or just to say hi.

**How will you bridge the gap between general chapter members, the region, and the international order?**

I believe that the two largest assets to bridging the gap are Instagram and GroupMe. It is imperative to have constant posts and stories on our regional Instagram and to continuously send messages in the GroupMe, both regarding any happenings in the international or regional order. By doing this, general members will have more accessibility to the order as a whole.
