

CANDIDATE FOR THE NASSAU SUFFOLK REGION'S 63RD  
N'SIAH, CARLY YANOVER

VISION STATEMENT:

When I look into the future for this upcoming year, I hope to accomplish many things that will propel our region forward, ultimately providing the best year for you all. NSR is so special because there's so much love from the people within it. We use this love to make others around us feel the same way, ultimately impacting lives and leaving a legacy of love. Whether this is your senior year and the end of this journey, or you are in 8th or 9th grade and just getting started, I want to make this year unforgettable. I want you to look back at this time with fond memories of the amazing things we were able to accomplish with each other and as a community while furthering our region. More than that, I want to make up for the time we lost during this year. Next year is a fresh start, with the bar set high to make up for what we lost. It's important we take full advantage of this and make every event bigger and better. We should celebrate and appreciate the time we have together, while giving back to those around us.

HOW WILL YOU MAKE NSR'S CONNECTION WITH THE  
INTERNATIONAL ORDER STRONGER AND MORE MEANINGFUL?

Through the proper use of promotion we can further the use of gamechanger grants, applications for the ILN, and ambassador programs. Additionally, through analyzing the data within chapters we can create a list of real, promising, prospects to encourage to sign up for summer programs. Rather than broad texts in a group chat, I will make sure each girl is personally reached out to with an individualized message explaining why we think this is fit for them. Furthermore, I plan to create a pen pal system with our Siberian partners so we can keep in touch with other Jewish teens like us. Lastly, through zoom and BBYO On demand, I would like to have joint region events with many regions across the International Order.

HOW WILL YOU WORK WITH YOUR BOARD TO IMPLEMENT CHANGE  
ACROSS THE REGION?

Working with my board, we will have monthly group AND individual calls to ensure everyone is kept up to date 24/7. Additionally, monthly, in person, meetings with the S'ganit Nassau and S'ganit Rifka will allow me to further help and understand our chapters, where they are strong, and where they can improve. Furthermore, I plan to create a master list of goals at the beginning of the year. We can then take this list and divide it into monthly goals to make sure everything we promise is accomplished.
