

**Aleph Toby Stanton**  
**Candidate for 57th Dixie Council S'gan**

If I were to be elected S'gan of the 57th Dixie Council, I would work tirelessly to the betterment of the council and to all teens. My main vision would be to ensure that all Dixie programs are unique, inclusive, fun, and memorable. With this, a strong bond among teens can be fostered to influence lasting relationships and meaningful experiences. In my time in BBYO I have truly made strong connections with teens like me and those I never could've imagined. As the 57th Dixie Council S'gan, I would work to create a safe space in which others can do the same. In order to do this, several steps would have to be taken including building a confidence and sense of pride in MITs and AITs in their self and their Jewishness, conferring with my fellow S'ganim and members of Dixie Council and Eastern Region to coordinate ideal programs, and to be a role model and good friend to all members of BBYO to ensure that all teens feel supported, inspired, and proud.
